Parent Participation Policy
2024-2025

**Parental Involvement is a foundational pillar of the PCA experience and
it is an essential part of a student's education at Providence Christian Academy.**

The primary purpose of Parental Involvement is to enhance the educational experience at PCA for students, teachers, and parents by encouraging and developing parent support as well as offering opportunities for fellowship within the school community. PCA makes every effort to keep parents/ guardians informed and to provide numerous opportunities for involvement and interaction. Each parent is expected to complete and log annual parent participation requirements each semester.

A point system exists whereby a parent may track and log annual parent participation requirements. Both parents are expected to earn a minimum of 24 points per academic year (12 points per semester) and log them online through their individual RenWeb parent portal. Activities and their respective point values are listed below. Anytime parents are volunteering, providing assistance to PCA, or attending a PCA event, it may be recorded as parent participation.
